General Information

1. Apple Sales Web (ASW) Access

ASW is Apple's channel web site. You will find policies, practices, and other valuable tools necessary for doing business with Apple. As an Apple Authorized Training Center, you are required to access this site on a weekly basis. You need an AppleConnect ID in order to access the site. If you do not have access to ASW or an AppleConnect ID, please follow the instructions below to register for ASW.

TO REGISTER FOR ACCESS

- Go to <http://sales.apple.com>

- Click the "register here" link located in the top, right hand corner of the log in screen. Please complete the form, including the Apple ID for your location. Submit the registration form.

- You will receive a confirmation email within 3 business days.

If you have any questions or problems with your registration, please contact:

asw@apple.com.

2. Changes to this document

Apple reserves the right to change the Policies and Practices Document, at any time, by posting to Apple Sales Web and notice shall be deemed given when posted, and Training Center shall have a commercially reasonable period of time to implement any notified changes on the Training Class, provided such period shall not exceed thirty (30) days.

3. Additional Definitions for the Pro Apps AATC Program

- "Apple Portal Site" means the password protected Internet web site administered by Apple or its agent that provides Training Centers and Candidates access to Apple Tests and Testing System Software.
- "Apple Testing Material" means the Testing System Software, Apple Test and related information that is proprietary to Apple or licensed thereto, and which is accessed by or provided to a Training Center for the limited purpose of performing Testing Services at an Authorized Location.
- "Candidate" means an individual who registers with Training Center to take a Test.
- "Testing System Software" means the data communications, testing systems and software that are proprietary to Apple or licensed to Apple by third party suppliers and all changes, enhancements, upgrades, improvements, and modifications thereto and derivative works thereof. Testing System Software includes all software and systems necessary to or used by Apple or third party suppliers to register Candidates, administer an Apple Test, processes results and communicate with Candidates.

4. AATC Recognition Program

The Apple Authorized Training Center (AATC) Recognition Program's mission is to reward our highest performing AATCs and encourage all AATCs to strive for excellence. This program will be available to both Mac OS X Technical Training and Pro Apps AATCs. Participation in this program is optional.

Only AATCs who accept training units and are considered to be in good standing are eligible to take part in this program. AATCs are considered to be in good standing if they meet the following conditions:

- Submit rosters on a timely, consistent basis
- Submit invoices on a timely, consistent basis
- Submit student evaluations via Metrics that Matter for all classes
- Submit AATC forecast reports monthly
- Are not in arrears for any of marketing, material or exam fees
- Have a record of 4.0 out of 5.0 for customer satisfaction on Apple certified courses as defined in the Metrics that Matter results

Entry Level Program	Gold Level Program
Training Unit Acceptance not required	Training Unit acceptance required
Marketing Fee Optional*	Annual Marketing Fee
Meet class minimums	Teach in excess of 30 students per quarter
Meet exam minimums**	Administer at least 15 exams per quarter**
Excellent customer service	Excellent customer service

*Required for web presence

**Pro Apps only

5. Training Classes

The Training Center is permitted to deliver only the Training Classes that their Certified Trainer is eligible to teach based on their completion of the certification program associated with the Apple Certified Trainer Program. Apple reserves the right to change the Training Class title and content, at any time, by posting to Apple Sales website and notice shall be deemed given when posted, and Training Center shall have a commercially reasonable period of time to implement any notified changes on the Training Class, provided such period shall not exceed thirty (30) days.

a. Authorized Training Locations

Apple Courses must be held at Training facilities that meet Apple's Minimum Facility Recommendations and Requirements as outlined in this document. Additionally, Apple reserves the right to inspect all Authorized Training Center Locations, prior to authorization or anytime thereafter to confirm that the location complies with the requirements. Upon submission of a completed application form and additional marketing fees, if applicable, the Training Center may request that additional permanent locations be authorized under this Agreement. Based on the location's compliance with the requirements and any

inspection performed by Apple, if any, Apple will determine in its sole discretion whether the location is authorized, and shall confirm its approval in writing.

i. **Customer Onsites**

Training Center is able to deliver at customer locations for individual classes, not to be posted on Clockwork

1. *Must have a minimum of 4 and maximum of 15 students*
2. *Submit roster on first day of class with each student classified as an open enrollment student.*
3. *If the customer is paying for a class delivery with Apple Training Units (ATUs), AATC agrees to a ATU value that is the open enrollment value of said class x a specified number of students. ie, a customer onsite of FCP 101 must be quoted as a multiple of 13 ATUs.*

c. *Minimum Number of Training Classes and Exams*

Training Center agrees to deliver a minimum of one (1) Apple Pro Apps training class and two (2) Apple Pro Apps certification exam sessions each quarter in order to maintain a presence on Apple's training website, <http://train.apple.com>.

d. *Enrollment of Students*

Subject to the terms of the Agreement, the parties agree that the Training Center is authorized to deliver Training Classes at Authorized Training Locations where student enrollment is available to any member of the general public ("Open Enrollment") or when student enrollment is restricted to private groups ("Closed Onsite") at Training Center's location. Training Center is responsible for maintaining an enrollment process for their students and must send written confirmations of enrollment to any registered student that has remitted full payment either via email or other approved distribution systems.

e. *Certified Trainers*

Unless otherwise agreed to by Apple, only employees or authorized independent consultants of the Training Center who are Apple Certified Trainers (ACTs) are permitted to deliver Training Classes under this Agreement. Details on Apple's Certified Trainer Program are currently available at <http://train.apple.com>. ACTs may not deliver Training Classes for which they are not certified. The Training Center shall ensure that each ACT engaged by Center remains in compliance with Apple's Policies and Practices for Apple's Certified Trainer Program while delivering Training Classes.

f. *Classroom*

Each Training Class must be held in a classroom located within an Authorized Training Center Location that meets or exceeds the requirements described in the Minimum Facilities Requirements Section of this document.

- i. Apple specifies a maximum number of fifteen (15) students who may attend a Training Class, and the Training Center agrees not to exceed the stated maximum.
- ii. Each Classroom will have sufficient equipment to allow each student to use individual equipment (no sharing) through the duration of a Training Class.

Amy Lawder 12/8/06

Anne asked if we cared
about a minimum. I don't
know?

g. Software

Training Center will provide the appropriate software to run each Training Class, as specified in the Classroom Requirements Document (CRD) for each Training Class, found on ASW, and shall purchase as required valid software licenses from Apple or any third party vendor for all computer systems used by Certified Trainers and Students participating in the Training Class in the classroom, including updates that may be required. Existing Apple Software licenses for the Authorized Training Locations may be used so long as each Student and Certified Trainer station is individually licensed and the version complies with the CRD requirements. Training Center agrees to comply with all licensing terms of the software required in delivering Training.

h. Method of Delivery

The Training Center agrees that the method of delivery and technical discussions of the Apple Course Materials shall be based on those demonstrated to the ACT during the ACT Train-the-Trainer (T3) Program. Class discussions and laboratory exercises will be consistent with those defined in the Apple Course Materials.

5. Co-Marketing

- a. Training Center may include descriptions of Training Classes that Training Center is authorized to deliver in its relevant training and promotional publications such as course catalogs websites, and various marketing material
- b. All course catalogs, promotional publications and other materials promoting Training Classes offered by the Training Center must be reviewed and approved by Apple in writing before publication to ensure Apple's third party guidelines on trademark use are being met. Apple will use reasonable efforts to review publications within a commercially reasonable period of time not to exceed thirty (30) days.
- c. An annual marketing fee per AATC location will be assessed for placement of AATC on the Apple Customer Training website and for the ability to post schedules online for customer viewing. This fee will also give the Training Center other program benefits. This is an optional fee and covers from July 1st through June 30th of the year in which it is paid. All participating AATCs will be assessed a new marketing fee each July, regardless of the month in which they paid the previous year's fee.

6. Duties of Training Center

a. Program Updates

Worldwide Training and Certification emails a monthly Program Update to all AATCs. This is our vehicle for communicating important AATC Program news and Apple Training and Certification updates, including new courses and exams. As an Apple Authorized Training Center, you are required to have at least one member of your staff read this update each month. You can add additional recipients to the recipient list by sending their email address to trainingcenter@apple.com.

b. Schedule of Training Classes

Publishing classes via Clockwork is only available for Pro Apps AATCs who accept Apple Training Units (ATUs). Upon acceptance into the ATU program, the Training Center shall submit to Apple via Clockwork its proposed schedule of Training Classes to be delivered at each Authorized Training Location. At Apple's discretion, all Open Enrollment schedules may be published by Apple on its website. Apple will not be responsible for any errors made by Training Center's regarding their schedule of Training Classes.

c. Registration

Apple and the Training Center agree that throughout the term of the Agreement Training Center is responsible for registering Students seeking enrollment in Training Classes delivered by Training Center. Training Center is responsible for administering the cancellation policy.

d. Customer Billings

Apple and Training Center agree that Student billing for the Authorized Training Location will be handled by Training Center in the same manner as other customer billing activities. Training Center shall be responsible for handling all Training Center inquiries and complaints concerning billings, unless agreed otherwise in writing by both parties.

e. Student Roster

On the first day of each Training Class, Training Center agrees to complete and forward to Apple a complete student roster of attendees at such Training Class that is completed using the Roster Tool application available on ASW (<https://asw.apple.com/cgi-bin/WebObjects/ASWViewer.woa/wa/display?id=L304332A>). The roster file must be sent to autowizbot@apple.com with a cc to trainingcenter@apple.com via email transmission or as otherwise directed by Apple. Student Roster information should include the Course Part Number, Date of Class, Instructor's Name, Student's name, company, and full company address. Any Apple Training Unit customers should have a Pre-Authorization ID number submitted on the Roster as well. Apple may terminate the Training Center's authorization immediately if the Training Center fails to adhere to the requirements of the Student Roster.

- i. Privacy Of Student Data - Training Center agrees to comply with all laws regarding the gathering, compiling and distribution of information relating to the personally identifiable information of Students, including if appropriate, notice prior to or at registration that personally identifiable information may be shared with other third parties for evaluation, marketing and administration purposes. Training Center must indicate on the Student Roster whether Students have not permitted Training Center to allow their personal identifiable information to be processed in this way.

f. Apple Certification Tests

Training Center agrees to offer corresponding Apple Certification Tests to all Students attending Training Classes, if available. Training Center agrees to offer

Apple Level One Certification Tests to those interested in taking an examination without taking the corresponding Training Class. Training Center also agrees to verify Apple Test Level One certification for Students registering to attend a Training Class Level Two or higher corresponding Apple Certification Test. All Students registering for Level Two or higher Training Class or Level Two or higher Apple Test must be certified at Apple Level One in same application and version. Training Center agrees to offer an Level Two or higher Apple Certification Test with each corresponding Level Two or higher Training Class.

g. Completion Certificates

The Certified Trainer must provide each Student who completes the Training Class a Course Completion Certificate on the last day of the Training Class. The Course Completion Certificate must be in accordance with Apple's Corporate Identify Guidelines.

h. Apple Quarterly Seat Requirement

Training Center also agrees to make two (2) Training Class seats per Training Center per quarter available for Apple's use, at its discretion, provided that the cost of using the seats is incremental to the Training Center, i.e. the use of the seats does not incur significant additional costs such as the hiring of an additional Certified Trainer or Teaching Assistant. The parties will agree on the provision of Student Materials for the use of the seats.

i. Promotions

From time to time, Apple may present to Training Center promotions on Training Classes used as a tool to market Training Centers, and Training Center agrees to consider its participation in such promotions on a case by case basis.

j. Website and Registration System Requirements

Training Center must maintain a website with current information regarding Training Classes and Apple Tests, including approved descriptions, schedules and pricing. The website must allow a Student to register online or direct the Customer to a phone number of a training sales representative who can enroll the Customer in the Training Class or Apple Test. Apple Authorized Training Center must be displayed on all websites.

7. Materials

a. Student Course Materials

AATCs are eligible to become PeachPit resellers and purchase Student Course Materials at a discount to be determined by PeachPit. These materials may be ordered through PeachPit Press. The US contacts are as follows:

Contact	Phone	Email	States Covered
Mark Levine	317-428-3275	Mark.levine@pearsontechgroup.com	AZ, CA, CO, HI, IN, IA, KS, MA, MI, MN, MO, MT, NE, ND, NV, NJ, RI, SD, UT, WI, WY
Dianne Fortier	317-428-3169	dianne.fortier@pearsontechgroup.com	CT, DC, DE, ME, MD, NY, NY OH, VT, IL
Mollie Stephenson	765-374-0529 or 317-428-3284	mollie.stephenson@pearsontechgroup.com	AL, FL, GA, KY, LA, MA, NM, NC, OK, PA, SC, TN, TX

b. Instructor Course Material

Apple will provide, as part of the T3 process, one set of Instructor Course Materials per course required to deliver Training Classes to the Certified Trainer. Any lost or replacement materials must be replaced at the expense of the Certified Trainer.

d. Apple Authorized Materials

Training Center shall perform Training Services using Course Materials determined by Apple. Training Center shall provide one set of Student Course Materials for each Student enrolled in the Training Class, in addition to any supplemental materials provided, unless otherwise agreed in writing by Apple.

8. Performance of Training Center

a. Evaluation Forms

On the last day of each Training Class, Training Center agrees to provide to Students the class evaluation forms from Metrics that Matter™ (MTM), when this becomes available.

b. Monitor Performance

Following receipt of the class evaluation forms, Apple will review the forms for quality assurance purposes. If any Certified Trainer receives an overall score for a Training Class that is less than the Quality Assurance Threshold set for the Training Class, Apple may terminate the Agreement in accordance with its terms or pursue such other remedies in its sole discretion, including but limited to the Quality Assurance Remedies described below.

c. Quality Assurance Remedies

In the event that Training Classes are not performed in a manner consistent with the provisions of this Agreement, Apple may request that the situation be cured.

- i. Upon receipt of notice, Training Center and Apple will jointly develop and implement an action plan to remedy the situation within thirty (30) days.
- ii. If the situation is not corrected within a total of forty-five (45) days after notification of the problem, or within a reasonable length of time as dictated by the agreed-upon action plan, Apple may after reasonable consultation with Training Center, direct Training Center to take additional corrective action.
- iii. If a replacement Certified Trainer is required, Training Center shall bear the costs associated with replacing a Certified Trainer.
- iv. If problems persist beyond an additional remedial action time limit of forty-five (45) days, Apple reserves the right to terminate the Agreement immediately. This right to terminate is in addition to any other rights Apple may have under the Agreement.

9. Cancellation

The parties agree that the following cancellation policy shall apply to all Apple Training Classes delivered by Training Center:

a. Customer Cancellation

- i. Customer is entitled to full refund if written notice is received at least 14 days in advance of the class.
- ii. Customer is entitled to a full class credit if written notice is received at least 7 days in advance of the class. Class credit must be used within 6 months of the date of the original class at another class offered by Training Center.
- iii. Customer is not entitled to a refund or class credit if less than 7 days advance written notice is given.
- iv. Failure to provide written notice at least 14 days in advance of the class obligates the Customer to pay the full price of the class.

b. Training Center Cancellation

- i. Training Center reserves the right to amend or cancel the date, time and location of a Training class at any time, including replacing personnel who may be scheduled to deliver the Training.
- ii. In the event a Training class is cancelled by the Training Center, the Customer is entitled to a full refund.
- iii. Training Center shall not be responsible for any other loss incurred by Customer as a result of a cancellation or amendment.
- iv. Training Center shall immediately notify Apple by fax at 408-974-2176 or email at trainingcenter@apple.com of any cancellation of a Training Class by Training Center.
- v. If the Authorized Training Location is available for the Training Class at the scheduled time and another trainer certified by Apple is available to teach the Training Class at the Authorized Training Location at the scheduled time, with the consent of Training Center, Apple may facilitate the attendance of such trainer to teach the Training Class, and shall invoice Training Center the trainer's fees and reasonable expenses for

- delivering the Training Class. Payment shall be due thirty (30) days from Apple's invoice date.
- vi. If the Authorized Training Location is not available at the scheduled time, in addition to immediately notifying registered Students of the cancellation, Training Center will make commercially reasonable efforts to reschedule the Apple Course at the Authorized Training Location at a time and date closest to the original schedule.

Pro Apps AATC Facility Requirements Document

This document provides details about minimum facility requirements for Apple Authorized Training Centers (AATCs).

- The AATC is responsible for providing all hardware and software described in this document; for following the classroom, network, and projection system setup outlined in the Classroom Requirements Document (CRD) for each class delivered at the AATC location; and for installing the required software prior to the first day of class.
- The Apple Certified Trainer (ACT) must have access to the classroom at least one business day prior to the first day of class. It is recommended that throughout the Apple course, the ACT have easy access to the classroom, including after-hours and weekends.
- Software and hardware requirements for students and instructor vary by class; complete descriptions of these requirements can be found in the Technical Specification webpage for each software product. The technical specifications can be found on the following links:
 - ✦ Final Cut Studio - <http://www.apple.com/finalcutstudio/specs.html?finalcutpro>
 - ✦ Logic - <http://www.apple.com/logicpro/specs.html>
 - ✦ Aperture - <http://www.apple.com/aperture/specs.html>
 - ✦ Shake - <http://www.apple.com/shake/specs.html>

Minimum Classroom Recommendations for all Apple Pro Apps courses

- Minimum recommended classroom size is 30-feet by 30-feet for 16 students; 20-feet by 30-feet is recommended classroom size for 8 students. Smaller classrooms will be evaluated based on layout and equipment. Apple makes the final determination on maximum number of students per class.
- Student work surfaces should be at least 36 inches wide by 30 inches deep, to accommodate two student systems; 40 inches wide by 30 inches deep is recommended.
- The instructor's table should be at least 48 inches wide by 30 inches deep, and located at the front of the classroom.
- Armchairs are recommended for all students and the instructor. Padded seats are required.
- Power outlets need to be provided for all computers, monitors, and peripheral devices used in the class, and should provide approximately five (5) amps of power for each device.
- The projection screen at the front of the classroom should be at least seven (7) feet away from the nearest edge of the student tables.

- Lighting controls should be accessible by the instructor. Dimming capability is preferred.
- Temperature controls should be accessible by the instructor.
- A wall-mounted or freestanding white board (with dry-erase markers and erasers) is suggested and should be located at the front of the classroom.
- A Mac OS X-compatible non-PostScript USB printer (with appropriate interface cable) with 10 foot cord is needed and should be easily accessible to the instructor.
- The classroom should be free of noisy machinery so the instructor can converse with students comfortably.
- Phones and restrooms should be easily accessible.
- One 100Mbps Ethernet switch with $n+5$ or more ports (where n =number of students)
- A projection system (as defined below) is required.

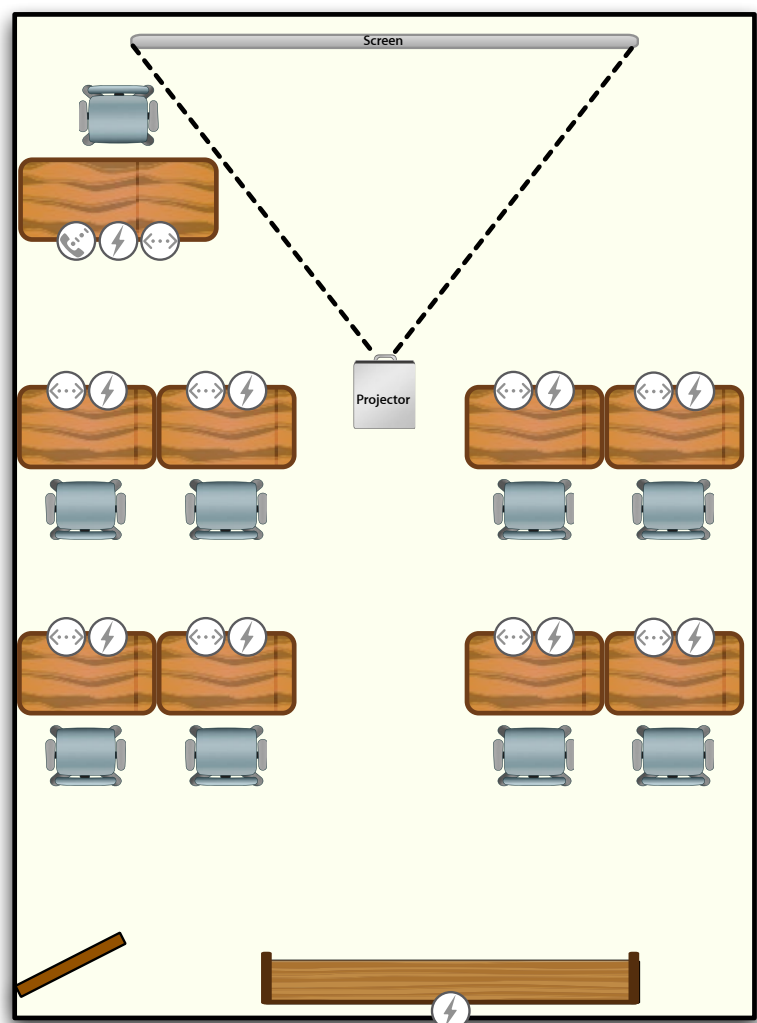

Minimum Projection System Requirements

- The projection equipment needs to be on a sturdy table or stand (approximately 29 inches high), or ceiling mounted.
- Minimum requirements for the projection system are as follows:
 - Resolution of 1024 by 768 pixels @ 75Hz
 - Projection rating of at least 2,000 lumens
 - 6 x 6 foot or larger projection screen
 - Spare projector bulbs
 - VGA switchbox
 - 3-port Switchbox capable of allowing projection from either Instructor System (Instructor systems defined in CRD)
 - Appropriate cables to connect the switchbox to the projection system
 - Cabling to simultaneously connect two monitors to the switchbox

Minimum Network Requirements

- All machines should be networked and have their connectivity tested prior to the first day of class
- Classroom network must be isolated from any other network.
- Internet access to classroom is required; recommend wireless access via Airport.

Suggested Classroom Layout - 8 person Classroom

Apple Certification Exam Proctor Guide

You are expected to follow the Apple Proctor Code of Conduct that you signed and returned to Apple. The proctor is expected to remain vigilant throughout each test session to ensure that the test is delivered fairly and securely every time. Except for the Shake 4 exams, all Apple exams are "closed book." Students may not use any reference materials, computers, cell phones, cameras, calculators, or other electronics during the exam, nor may they access any computer or Internet functions outside of the test interface. Each should be provided with a test station location that ensures privacy, and students should be cautioned against talking to each other during the exam.

Follow these steps to proctor Apple's Certification Exams on-line.

- Step 1.** Have your students (Test Candidate) Register for a Tech ID at certifications.apple.com.
- Step 2.** Make sure that your students have their eligibility code and voucher code before they begin.
- Step 3.** Once your students have their Tech ID and eligibility and voucher codes, you are now ready to proctor the exam.

To set up exam for each student follow these steps:

- Step 4.** If they haven't already done so, have your students log into the Apple Certifications website at www.certifications.apple.com/, using their Apple ID.

Step 5. Click the “Exam Sign Up” button in the blue ribbon bar at the top of the Apple Certifications administration page.

Step 6. Scroll down right side of page and locate the exam you wish to take and click sign up for certification exam.

Apple Certified End User -Motion Level 1	
Certification	Sign Up for Certification Exam
Exam Group: End User Exams - Level 1 -	Exam Code
All Required	
Apple Motion End User Exam, Level 1	9LO-924

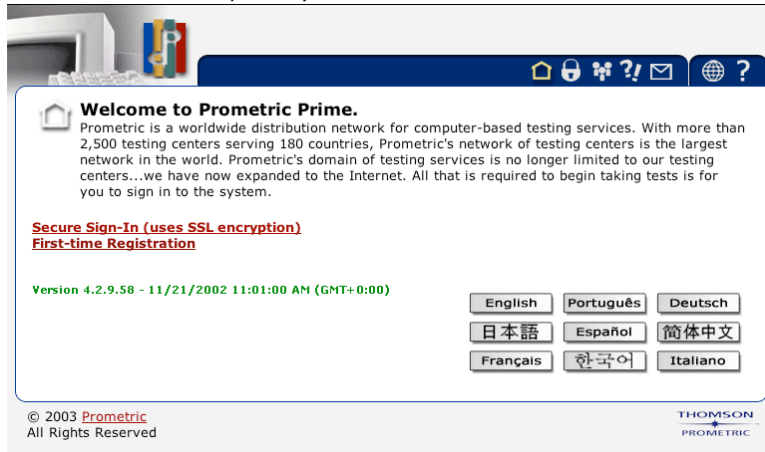

Step 7. Scroll to the bottom of the new page to Pro Application and click the “click here” link.

[Click here](#) to sign up for a Pro Applications certification exam

Pro Applications: **NOTE:** You must enroll in a Pro Applications course to take most Pro Applications exams. [Click here](#) to sign up for a Pro Applications course.

Step 8. From the “Welcome to Prometric Prime” page have the test candidate select his or her preferred default language for the test interface (the selection does not apply to the test itself), then click on the “Secure Sign-in (uses SSL encryption)” link if she/he already has a Prime profile, or on the “First-time Registration” link, if she/he doesn’t have a Prime profile yet.

Step 9. Walk the test candidate through creating a Prime profile if this is his or her first time registering with Prime. Ensure that the test candidate's name and Apple Tech ID reflect the information documented on the Apple Certifications site. If name and Tech ID are not entered accurately, the test candidate's exam results will not upload to the Apple Certifications Website.

First Time Registration - Part 2

Thank you for opening a user Account! Please record the below username and password information for future access to this system. If you ever forget your username and/or password, they can be sent to you at the email address you indicated on your registration.

Fields marked with * are mandatory.

First-time visitors

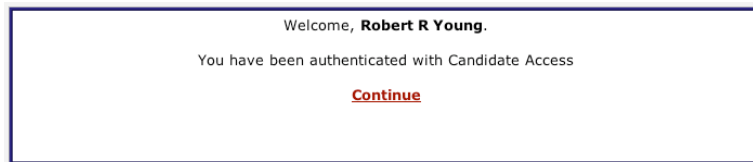

If you have not visited this site before, please create a free user account. Your user account allows you to take tests, review your scores, and communicate with the online test administrators.
 Create an Account

Note: In order to use this system or take tests online, your browser must support cookies.

Step 11. Instruct the test candidate to follow the on-line instructions, selecting “Apple” from the pull-down menu. Then the test candidate sets up his or her Prime profile by entering all required information. The test candidate’s last name and Apple Tech ID must be entered EXACTLY as they are documented on the Apple Certifications website.

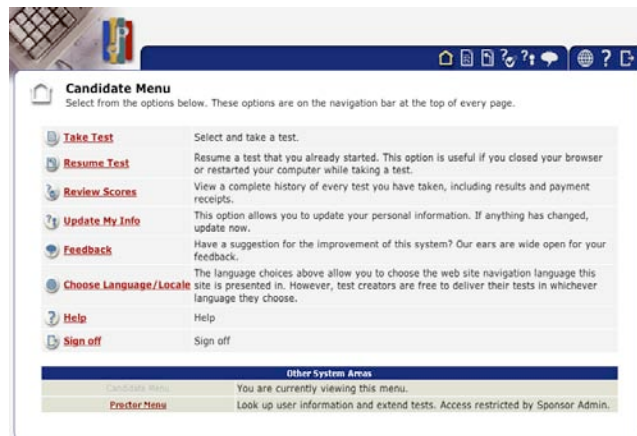

NOTE: Test candidates can only access the Prime test database by way of the Apple Certifications site.

Step 12. After logging in, the test candidate will see a window similar to the following. The test candidate should click on the “Continue” link.

TIP: If a test candidate needs to update his or her Prime information, or wants to verify that his or her Tech ID is entered correctly, tell him or her to click on the “Update My Info” link, and verify, or make any necessary changes. Updating Prime information does not automatically update profile information on the Apple Certifications website. The two systems are not integrated.

Step 13. From the following page, the **test candidate** should click on the “Take Test” link.

Step 14. Once the test candidate clicks the “Take Test” link, the following page appears. The test candidate enters the eligibility code that was given to them by the proctor. After verifying that the number was entered correctly the test candidate should click on the Submit button.

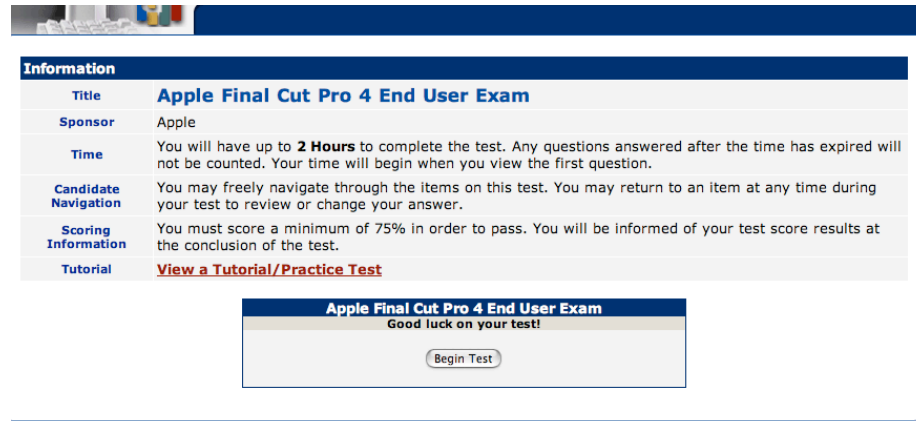

NOTE: The eligibility code should look like this: APPL-3567-8924-5902-8193. If you have run out of eligibility codes, please order more through Maxwell via ASW.

The screenshot shows the Prometric website interface. At the top, there is a navigation bar with icons for home, help, and other functions. Below the navigation bar, a progress bar indicates the current step: **STEP 1**. The main heading is **Step 1: Select a Test Sponsor (or submit keycode)**. Below this, a paragraph explains that Prometric offers both publicly available tests and private tests, and that private tests require a keycode. There are three columns of options: **Public Tests** (with a dropdown menu showing 'Apple'), **Private Tests** (with a text input field), and **Eligibility Tests** (with a text input field). Each column has a 'Submit' button. At the bottom, there are links for 'Other Options' and 'Return to Candidate Menu'.

Step 15. The following page appears once you have submitted a valid eligibility code. At this point the test candidate will be prompted for a voucher code.

The screenshot shows the Prometric website interface. At the top, there is a navigation bar with icons for home, help, and other functions. Below the navigation bar, a progress bar indicates the current step: **STEP 5**. The main heading is **Step 5: Promotions/Vouchers**. Below this, a paragraph explains that if the candidate has a promotion code or voucher, they should enter it below. Otherwise, they should leave the field blank and press 'Continue'. There is a text input field containing the code 'TEST-1236-7732-2564-2'. At the bottom right of the input field is a 'Continue' button. At the bottom of the page, there are links for 'Other Options' and 'Return to Candidate Menu'.

Step 16. Once the voucher code has been entered and the Proctor has verified that the appropriate test has been accessed, the test candidate presses the “Begin Test!” link.

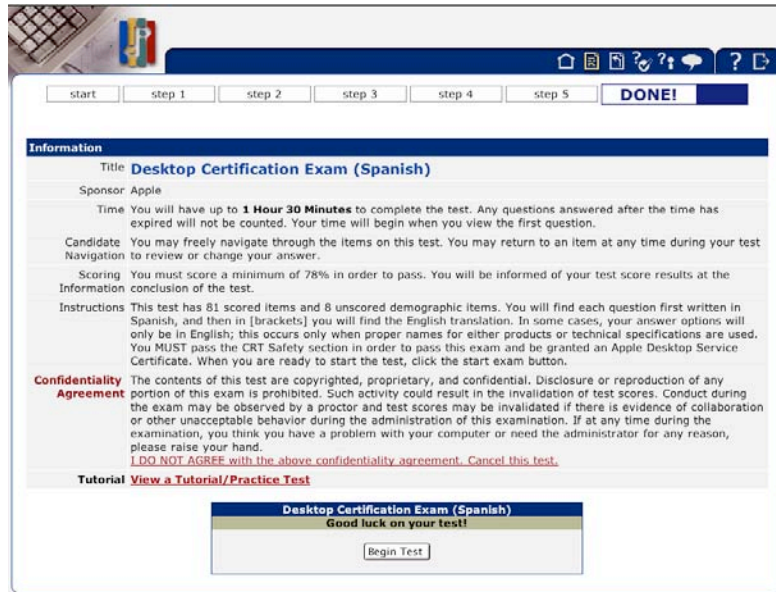

The screenshot shows a web interface for the 'Apple Final Cut Pro 4 End User Exam'. At the top, there's a blue header with the title 'Apple Final Cut Pro 4 End User Exam' and a 'Begin Test' button. Below this is a table with the following information:

Information	
Title	Apple Final Cut Pro 4 End User Exam
Sponsor	Apple
Time	You will have up to 2 Hours to complete the test. Any questions answered after the time has expired will not be counted. Your time will begin when you view the first question.
Candidate Navigation	You may freely navigate through the items on this test. You may return to an item at any time during your test to review or change your answer.
Scoring Information	You must score a minimum of 75% in order to pass. You will be informed of your test score results at the conclusion of the test.
Tutorial	View a Tutorial/Practice Test

Below the table, there is a blue box with the text 'Apple Final Cut Pro 4 End User Exam' and 'Good luck on your test!'. At the bottom of this box is a 'Begin Test' button.

Step 17. The test identification and instructions page appears. The Proctor may **allow the test candidate to begin the exam** and may move on to log the next test candidate into an exam. Allow the test candidate to review the test instructions alone, and click Begin Test when he or she is ready.

The screenshot shows a web interface for the 'Desktop Certification Exam (Spanish)'. At the top, there's a blue header with the title 'Desktop Certification Exam (Spanish)' and a 'Begin Test' button. Below this is a table with the following information:

Information	
Title	Desktop Certification Exam (Spanish)
Sponsor	Apple
Time	You will have up to 1 Hour 30 Minutes to complete the test. Any questions answered after the time has expired will not be counted. Your time will begin when you view the first question.
Candidate Navigation	You may freely navigate through the items on this test. You may return to an item at any time during your test to review or change your answer.
Scoring Information	You must score a minimum of 78% in order to pass. You will be informed of your test score results at the conclusion of the test.
Instructions	This test has 81 scored items and 8 unscored demographic items. You will find each question first written in Spanish, and then in [brackets] you will find the English translation. In some cases, your answer options will only be in English; this occurs only when proper names for either products or technical specifications are used. You MUST pass the CRT Safety section in order to pass this exam and be granted an Apple Desktop Service Certificate. When you are ready to start the test, click the start exam button.
Confidentiality Agreement	The contents of this test are copyrighted, proprietary, and confidential. Disclosure or reproduction of any portion of this exam is prohibited. Such activity could result in the invalidation of test scores. Conduct during the exam may be observed by a proctor and test scores may be invalidated if there is evidence of collaboration or other unacceptable behavior during the administration of this examination. If at any time during the examination, you think you have a problem with your computer or need the administrator for any reason, please raise your hand. I DO NOT AGREE with the above confidentiality agreement. Cancel this test.
Tutorial	View a Tutorial/Practice Test

Below the table, there is a blue box with the text 'Desktop Certification Exam (Spanish)' and 'Good luck on your test!'. At the bottom of this box is a 'Begin Test' button.

Step 18. Test candidate may now take the test. They can navigate back and forth, skip questions, mark questions for review etc.,. Test results will be given at the end of exam, after you click on "End Test".

If you have any questions, email Worldwide Training & Certification at trainingcenter@apple.com.

Apple Test Proctor Code of Conduct

This document specifies the conduct expected of Apple Authorized Testing Center employees who are designated to proctor Apple certification exams via the Prometric Prime engine. Please review sign and fax or email to Apple.

I. Test Security

- The content of Apple exams is extremely confidential. Proctors must guard the security of the exams at all times. Exams shall **never** be copied in any form by anyone.
- Protection of Apple exams requires that **the proctor be present and attentive throughout every test session**. Apple Exams must be scheduled in a location that supports test security. Candidates shall **not** take exams in their own homes or offices or any other unproctored location.

II. Test Reliability

Reliability is an important component of test integrity—a reliable test is one that is delivered exactly the same way every time, ensuring a “level playing field” where all candidates (regardless of which AATC administers the test) have exactly the same chance to pass.

To ensure reliability, proctors must **never**:

- “teach the test” or indicate to candidates in any way what is on the test, other than to direct them to the published resources for the test (such as Skills Assessment Guides).
- allow a candidate to use printed or online reference material during a test session (unless the test is clearly stated by Apple to be “open-book”).
- allow a candidate extra time, except in the following instances:
 - * Internet connection is lost — the proctor must notify the Apple test sponsor
 - * Non-native speakers of the exam’s language—should be arranged for and approved by the Apple test sponsor ahead of time.
 - * Certain medical conditions as designated by the American Medical Association—should be arranged for and approved by the Apple test sponsor ahead of time.

III. Test Retakes

Candidates who fail an Apple exam must wait at least 7 days before attempting it again. Such candidates should be instructed to return to the associated course materials to study the sections on which they did poorly—not just look up answers to test questions.

IV. Proctor Review

The Prime engine provides many reports that allow Apple test sponsors to monitor proctor performance and the exams themselves are set up so that every candidate’s test result generates an email to the test sponsor. Test sponsors review all test activity carefully; if any activity appears to indicate that the rules in this code of conduct are not being followed, Apple retains the prerogative to revoke any proctor’s access.

I agree to abide by this code of conduct in proctoring Apple exams.

Clockwork Scheduling System: AATC Overview - Only available if AATC accepts Apple Training Units

Clockwork is an Apple server-based WebObjects application used amongst other things, to enter and schedule Apple Training Courses and enter the certification levels for each of the Apple Certified Trainers (ACT). Clockwork feeds the public Apple Worldwide Customer Training (WWCT) website (train.apple.com) with classroom, location, course information and schedules.

This document gives a basic introduction to the features and functionality of this system and walks you through the process of scheduling classes held at your Apple Authorized Training Center (AATC).

Required Clockwork Setup for AATCs

1. Each AATC must certify two people to schedule classes in Clockwork (a primary and a backup). Each user must have a valid AppleConnect ID. For questions regarding your AppleConnect ID account, refer to the myinfo.apple.com website.
2. All AATC Facilities and Classrooms are setup and managed by Apple.
3. AATC Facilities do not need to be certified by Apple for each course offered before scheduling of the course is permitted. However they will only be permitted to hold these classes with an ACT who is certified in the course, whether or not they are employed by that AATC. Contact the AATC Program Manager for a list of contract trainers who are certified on a particular course.
4. All roles will be setup and managed by Apple. These include escalation manager, training center, etc.
5. For modifications in any of the above areas, contact the AATC Program Manager via email to trainingcenter@apple.com.

Scheduling Classes in Clockwork

Step 1. Log In

In order to log in, you will need internet access, web browser and the following information:
URL: <http://train.apple.com/cgi-bin/WebObjects/Clockwork.woa>

At the Sign In Page, enter your:

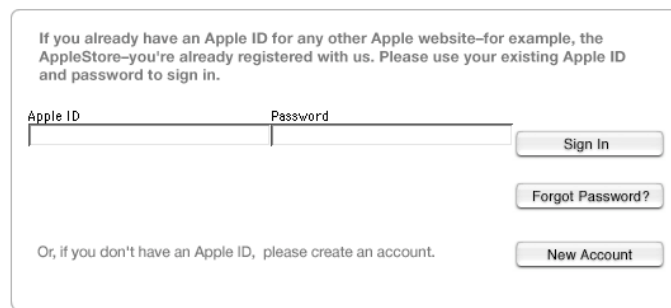

User name: Your Apple Connect ID

Password: Your Apple Connect Password

Click the *Sign In* button

Apple Customer Training

Please sign in

If you already have an Apple ID for any other Apple website—for example, the AppleStore—you're already registered with us. Please use your existing Apple ID and password to sign in.

Apple ID	Password

Or, if you don't have an Apple ID, please create an account.

After you log in, your Home screen is displayed. The Home screen provides these main functions:

- Displays a list of links to the other main screens in the Clockwork application.
- Displays a list of classes scheduled for your facility.

Step 2. Select Create Training Class Link

Click the *Schedule* tab.

You will now see several links under the *Schedule* tab.

- 1 Summary – summary of all published courses
- 2 Master Schedule – list of weeks and published classes from a master viewpoint
- 3 By Trainer – list of courses scheduled by each trainer. **Note:** This field only applies to trainers dedicated to delivering courses.
- 4 Create Training Class – The fast-track way to propose a training event

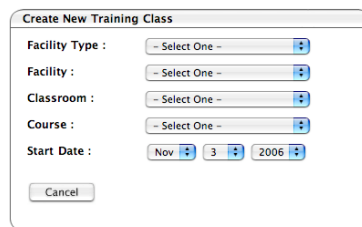

Click on the *Create Training Class* link.

[ents](#) | [Create Training Class](#)

Step 3. Identify Classroom and Course

Using pulldown menus, select the classroom and course you wish to schedule.

WARNING: If you are proposing more than one class in the SAME classroom in any week, you must enter the class that occurs later in the week first. If you do not, you will not be able to save the earlier class because the system defaults to Monday and will show the classroom as being booked.

A screenshot of the 'Create New Training Class' form. It contains several pulldown menus for 'Facility Type', 'Facility', 'Classroom', and 'Course', each with a 'Select One' option. Below these is a 'Start Date' field with a calendar icon showing 'Nov 3 2006'. A 'Cancel' button is at the bottom.

Then click on the Create & Save button.

Step 4. Finalize Class Details

You will now see the expanded view of the course posting. You have the option to make changes to each section still. You will be required to assign an escalation manager and you should change the course to committed status.

A screenshot of the 'Edit Class' form. It shows a 'Class Identifier' field with the value 'CID8422318'. Below are pulldown menus for 'Course' (MacOS 101 Mac OS X Suppe), 'Instructional Language' (English), 'Classroom' (Business Rules - Classroom), 'Trainer', 'Certifying Host', 'Training Assistant', 'System Administrator' (Rochelle A Weiner), 'Training Coordinator' (Rochelle A Weiner), and 'Escalation Manager' (Rochelle A Weiner). The 'Start Date' is set to 'Dec 25 2006'. There are checkboxes for 'Platforms' (Mac OS X, Mac OS X Server 1.2) and 'Status' (Draft, Committed). Below these are radio buttons for 'Public Listing', 'Onsite', and 'Can Waitlist'. At the bottom are 'Save', 'Cancel', and 'Retire' buttons.

Click the Save button on the lower left portion of your screen. This will take you to the summary screen. You may schedule additional classes by repeating these steps.

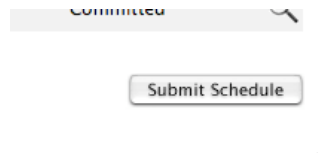

Step 5. Submit Schedule for Publishing

Click on the Master Schedule link in the secondary menu bar at the top of the screen. You will now see a monthly view of your courses, starting with the current date.

A horizontal filter bar with a rounded right side. It contains three dropdown menus: the first shows '4', the second shows 'weeks, starting : Dec', and the third shows '3' and '2006'. To the right of these is a button labeled 'Filter'.

Using the pulldown menus, adjust the dates and numbers of weeks you desire to view. Once all the committed classes are visible, scroll to the bottom right of the page where you should see a Submit Schedule button to click.

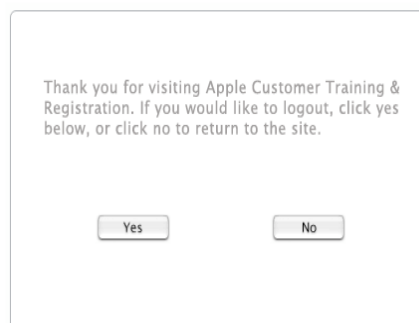

A section of the interface showing a grey bar with the word 'Committed' and a magnifying glass icon. Below this bar is a button labeled 'Submit Schedule'.

Any classes showing committed status will need to be submitted to Apple to make live on the <http://train.apple.com> site. Only the classes in committed status that are visible will be posted. You May need to submit the schedule several times, adjusting the pulldown date menus between each submission.

Step 6. Log Out

At the end of your session it is recommended that you log out of the application for security reasons. Click on the *Logout* tab.

After clicking on the Log Out tab, you are presented with the following screen. Clicking *Yes* will take you back to the *Log In* screen.

A rectangular dialog box with a thin border. Inside, the text reads: 'Thank you for visiting Apple Customer Training & Registration. If you would like to logout, click yes below, or click no to return to the site.' At the bottom are two buttons: 'Yes' on the left and 'No' on the right.

Canceling Classes in Clockwork

Canceling Class In Draft or Committed Status

To cancel in class that is still in *Draft* or *Committed* status, view the class in the Master Schedule view and click on the – button.

Canceling A Published Class

To cancel a class that is in *Published* status or has already been published, you must send an email at least 7 days prior to the class start date to the AATC Program Manager at trainingcenter@apple.com to *Retire* a specific class. Retiring the class removes a published class from the website.

Clockwork Glossary

The following terms are used within the Clockwork application. You should familiarize yourself with these terms for a better understanding of their meaning and specific application.

Class	A specific training event.
Classroom	A room in which classes are delivered.
Committed	Status of a class that indicates a commitment to hold the class. To <i>Save</i> a class as <i>Committed</i>, you assign: • A Course Name • A Classroom • An Escalation Manager • A Start Date Once committed, a training class cannot be un-committed; however, it can be retired.
Course	A class offering, such as <i>Macintosh OS X Server Essentials</i> . See <i>Class</i> .
Draft	Status of a class not yet <i>Committed</i> .
Escalation Manager	Person ultimately responsible for the successful execution of a particular class. The Escalation Manager is determined when you change the class status from <i>Draft</i> to <i>Committed</i> and must be identified in order to <i>Save</i> .
Facility	Site of one or more classrooms. In the Classroom & Facilities window, Facilities can be viewed using the following filters (choosing a filter displays only those facilities that match the filter): • Apple: Apple Facilities • AATC: Apple Authorized Training Center Facilities • Onsite: Facilities not open to the general public such as a customer site.
Trainer	Apple Certified Instructor who is responsible for the leader-led delivery of an Apple Training course.

AATC Code Ordering for End User Exams

Overview

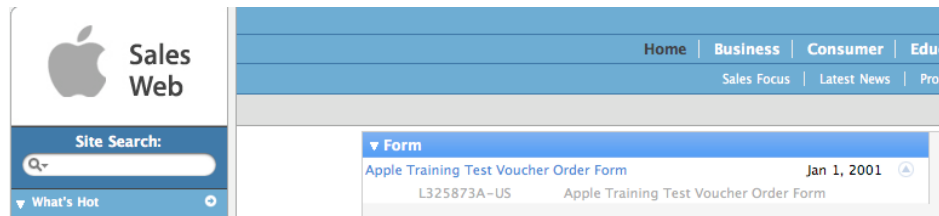

Worldwide Training and Certification offers an online solution for ordering and paying for end-user exam eligibility and voucher codes. This system, nicknamed Maxwell, will allow the AATCs to place orders by specifying type of exam and number of exams. All AATCs have access to level one end-user exams. Any AATC who has an Apple Certified Trainer (ACT) certified at levels 2 and/or 3 should email trainingcenter@apple.com to ensure that they are given proper access to the higher level end-user exams. All level 2 and 3 end-user exams must be delivered only at the conclusion of the level 2 and/or 3 class at the AATC.

Getting Started

AATCs must have access to Apple Sales Web (ASW) in order to access Maxwell. ASW access is granted to a specified list of individuals at each AATC. In order to add additional people to ASW access, please email trainingcenter@apple.com. Access to ASW can take up to six (6) business days once the request is received by WWT&C.

Logging In

Log into ASW via <http://sales.apple.com> using your AppleConnect ID. In the Site Search field, type Maxwell and hit enter. You will see a listing for the Apple Training Test Voucher Order form. Click on it. You will be directed off of ASW and asked to authenticate your log in again.

Main Screen

Once logged in, you will see a screen like the following:

Apple Training

Apple Training Units Business Processes for AATCs

Apple Training Units are a way for customers to separate the purchase decision for training from the scheduling decision. The program is currently targeted at business and education institution customers. Apple Training Units are also being targeted at customers anxious to spend allocated funds within their fiscal year. This placeholder for their funds allows them to take training at a future date not to exceed 12 months from their purchase date in order to make a decision about which courses are appropriate for the people involved.

Participation by the Apple Authorized Training Center (AATC) is voluntary and based on the decision of the individual Centers. All AATCs must read the program processes and sign an opt-in form validating that they have read and understood the program policies. This form is mandatory in order to establish a purchase order (PO). No AATC will be reimbursed without a PO in place prior to the acceptance of a Training Unit student. The opt-in form is included at the end of the Training Unit processes.

Attached are processes around Apple Training Units for Apple Authorized Training Centers:

Training Units Redemption for Class Registration at AATC

Steps:

The customer contacts the AATC where they wish to register for a class using Training Units. Training Units can be redeemed for Apple developed training classes. A purchase order must be in place with Apple and the AATC prior to accepting a student registration.

1. AATC obtains the required information from the customer for class registration
 - a. Course Name (Mandatory)
 - b. Class Start Date
 - c. Location, if applicable
 - d. Student last name, first name (Mandatory)
 - e. Company Name
 - f. Market Segment
 - g. Email address for Client's Authorized Training Unit Account Administrator (Mandatory)
 - h. AATC information (will auto-populate)
 - i. Comments
2. AATC submits a Training Units Redemption request to Apple (WWCT) through ASW (<http://asw.apple.com/cgi-bin/WebObjects/ASWViewer.woa/wa/addBookmark?id=L308285A-US>) at least 5 business days prior to class start date. Validation is done electronically based on Authorized Training Unit Account Administrator email address.
3. If sufficient Training Units balance exists, Training Units will be automatically held for class and notes in the transactions note section of CrackerExtreme that this is being redeemed at an AATC, which AATC is delivering the training and the location of that AATC.
4. If insufficient available Training Unit balance exists, the request will go into a hold status and an email will be auto-generated to the AATC to follow up with the Customer. Customer must either: order additional units, hold off and redeem for product using fewer units, or pay using another payment method. **Split payment methods where a customer combines Training Units and another form of payment to pay for the classes are NOT allowed.**
5. Once a sufficient Training Unit balance is in place, CrackerExtreme will send a transaction email confirmation to Training Unit Administrator and copy the AATC (as well as any standard cc's for that account i.e. Student, Account Rep). This email confirmation will serve as approval for course enrollment.

NOTES:

- 1) Expected turnaround time from the time of an Apple Training Unit sale to the time a student can redeem training units for a course is 7-10 business days.
- 2) No AATC is authorized to redeem training units from any student or company without first receiving approval from Apple (WWCT) that validates that training units are available and are being redeemed by the Company's authorized account administrator. Any AATC who fails to obtain authorization from Apple (WWCT) validating that a student/company has sufficient training units for a class may not qualify to be reimbursed by Apple for delivery of the class. This decision is at Apple's discretion. All training unit redemption requests **MUST** be completed prior to class start date or the AATC will not be reimbursed for the student.

Credit Process for When Customer Calls to Cancel Class at an AATC

Steps:

1. Customer (Acct. Administrator) calls the AATC to cancel the class for which they have used Training Units as payment. NOTE: These refunds are subject to WWCT's current refund policy for cancellations. If it is outside of our refund policy, this needs to be explained to the customer that they will not be receiving a credit back for the class. No further notification to WWCT is required. If it becomes a customer satisfaction issue, escalate it to WWCT.
2. AATC immediately contacts WWTC to advise of cancellation and rescheduling (if any) via email at trainingcenter@apple.com. **ANY notification must be done as soon as possible prior to class start date.**
 - a. If customer is rescheduling for a class on a different date, the AATC needs to re-submit a TU Redemption Request form.
3. WWTC logs into CrackerExtreme and looks for the transaction based on the Customer and date of the class.
 - a. If the Customer is entitled to a credit since it is within our cancellation policy, the TU Redemption Request will be retracted.
 - i. CrackerExtreme will send an automatically generated email to the customer with a cc: to the AATC regarding the Training Units being released back into the customer's account.
 - b. If the Customer is not entitled to a credit due to being outside the bounds of the cancellation policy, WWTC will leave the status of the units as is. This status should remain in the "reserved" status so that the system will automatically change the status of the Training Units to "redeemed" when the first day of class occurs. AATCs must submit roster showing student name noting late cancellation or no-show. AATC must also invoice WWTC with the same notation.

NOTE:

1. All customer satisfaction issues are to be handled by the Training Center.
2. AATC will be reimbursed for the student if the student did not cancel within the timeframe required for a course credit and there are no customer satisfaction issues, even though the student did not attend the class.

Credit Process for when AATC Cancels Course at their Location

Steps:

1. Course is cancelled in accordance with WWTC cancellation policy.
2. AATC contacts customer to advise of cancellation.
3. AATC must contact WWTC via email to trainingcenter@apple.com to advise of course cancellation. **ALL notifications must be done as soon as AATC makes the decision to cancel the course and as soon as possible prior to class start date.** Email needs to contain the following information:
 - a. Class name
 - b. Class date
 - c. Student name
 - d. Student email address
 - e. Company Training Unit account administrator email address
4. Upon receipt of this email, WWTC will retract the TU Redemption reservation. If customer is rescheduling for a class on a different date, the AATC will need to submit a new TU Redemption Request for the new dates and/or course information.
5. CrackerExtreme will send an automatically generated email to the Administrator with a cc: to the AATC regarding the cancellation of Training Unit transaction.

NOTE:

1. Billing issues as it relates to the Customer and the AATC are to be resolved between the AATC and the customer directly.
2. Participating AATCs must adhere to WWTC's 14 day cancellation policy.

Payment Process for AATC redemption of Apple Training Units

Steps:

1. Customer takes class at AATC using Training Units as payment.
2. AATC indicates on Roster Tool which students are using TUs. Roster tool must be submitted to WWCT on class start date. After 3 or more incidents of late Roster submission, the AATC will no longer be allowed to participate in the training units redemption program.
3. WWCT tracks AATC and TU students based on Roster Tool submission.
4. AATC invoices WWCT for payment by sending invoice via email to trainingcenter@apple.com. Invoice should include the following information:
 - a. Purchase order (PO) number
 - b. Student's Name
 - c. Company Name
 - d. Date of Class
 - e. Class Name
 - f. Class Part Number
 - g. # of Training Units
 - h. 90% of training class suggested retail price (see [AATC ATU Redemption Price List](#) (Part Number L329998A-US on ASW))
5. **IMPORTANT: ALL invoices must be submitted within 14 days of course date. Any invoices sent after close of the quarter in which the class was delivered will be sent back and the amount revised to 50% of previous total. Any invoices sent in later than the close of the quarter after the class was held will not be paid.**
6. WWCT to go into CrackerExtreme access rosters and student data.
7. WWCT processes goods receipt (GR) towards AATC PO.
8. Austin A/P processes invoice receipt (IR) on net 30 terms against PO from date of invoice submission.

NOTE:

- 1) Revenue recognition for WWCT will occur as normal and WWCT will accrue for the reimbursement expense.
- 2.) Invoices submitted that exceed 14 days from class start date are subject to non-reimbursement.

Apple Authorized Training Center Training Units Process Acceptance Form

I, _____ , representative of

_____, acknowledge that I have

read, understand, and agree that above Authorized Training Center will follow the Training Unit processes as defined by the Apple Authorize Training Center Policies and Practices document. Please sign and fax to 408-974-2176 for purchase order processing to begin.

Channel Partner Wants to Take Pro Apps Training at an AATC

Channel partners who seek training and certification in various Pro Applications may do so at a discounted rate (\$250/day plus \$75 for the exam) at participating Apple Authorized Training Centers. Apple will post a list of participating centers on Apple Sales Web.

The following channel groups can participate in this offer:

- VARS
- ACNs
- Specialists
- Resellers
- Agents
- Direct Marketers
- Authorized Training Centers

Note: Customers of the above channels may NOT participate in this offer.

Steps:

1. Channel partner approaches the AATC with a coupon code that will be provided to the Channel partner (and to the AATC, for verification) by trainingcenter@apple.com.
2. AATC registers channel member for the course and charges them directly based upon the discounted rate (\$250/day plus \$75 for the exam). Channel partners will meet all course prerequisites.
3. Channel partner attends AATC class and takes the certification exam, if desired.

NOTE: The AATC may reserve the right to limit the number of channel participants in a particular class. The Channel partner is responsible for bringing his/her own training materials to the course. Channel partners who forget to bring their own Peachpit materials may be charged the full retail price by the AATC.

The same cancellation payment policies for regular students apply. Training Units may not be used in conjunction with this offer.

Apple Employee Wants to Take Pro Apps Training at an AATC

Apple employees who seek training and certification in various Pro Application courses may do so at a discounted rate (\$150/day plus \$60 for the exam) at participating Apple Authorized Training Centers. Apple will post a list of participating centers on Apple Sales Web.

Steps:

1. Apple employee approaches the AATC with a course/exam coupon code that will be provided to the Apple employee (and to the AATC, for verification) by trainingcenter@apple.com.
2. AATC registers the Apple employee for the course and charges them directly based upon the discounted rate (\$150/day and/or \$60 for the exam). Apple employees will meet all course prerequisites.
3. Employee attends AATC class and takes the certification exam, if desired.

NOTE: The AATC may reserve the right to limit the number of channel participants in a particular class. The Apple employee is responsible for bringing his/her own training materials to the course. Apple employees who forget to bring their own Peachpit materials may be charged the full retail price by the AATC.

The same cancellation payment policies for regular students apply. Training Units may not be used in conjunction with this offer.

Apple Authorized Training Center Channel & Apple Employee Discount Acceptance Form

I, _____, representative of _____
_____, acknowledge that I have
read, understand, and agree that my AATC will abide by the attached guidelines for offering discounted rates to Apple Channel participants and Apple Employees for Pro Apps training. I understand that participation in this program is voluntary and can be dissolved with a 30 day written notice to Apple.
